

# The 5 Poses You'll Ever Need (Before We Break the Rules)

A beginner's posing guide

01

## THE CLASSIC CONNECTION POSE

### POSE #1: FACING EACH OTHER

This is the go-to pose you've seen everywhere. Why? Because it works. Turning toward each other instantly creates connection—it's intimate, romantic, and timeless. Bonus points for stealing a forehead touch or whispering something ridiculous to get those real laughs.

## Pose #2: The 45

This one is your best friend. If you ever panic in front of a camera, just turn slightly toward each other at a 45-degree angle. It’s relaxed, natural, and doesn’t scream awkward prom photo—trust us.

Vintage Vibes, But Make It Cool

This is the pose that'll make your grandparents proud. Both of you face the camera, standing side by side. It's old-school in the best way—think wedding portraits from the past but with way more personality.

## POSE #4: THE STACK

### Hug It Out (Without the Prom Vibes)

One person stands behind the other—super cute, super cozy. Just be careful: If your hands get too formal, it can lean into awkward prom territory. Keep it chill, relaxed, and don't be afraid to laugh it off.

A LITTLE MYSTERY, A LOT OF DRAMA

## Pose #5: The Reverse

One of you faces the camera while the other turns away. It's an easy way to add depth and a bit of storytelling to your shot. Plus, it's the perfect pose for that 'mysterious, broody' vibe if that's your thing.

UNDERWATER? ON A  
MOUNTAIN? LET'S DO IT.

Think these five poses are all we do? Hell no. If you're dreaming of something epic—whether it's hiking to a jaw-dropping viewpoint, running through the rain, or diving underwater—we're here for it.

Your love story is anything but basic, so why should your photos be? Let's make something unforgettable."

Bonus: Let's Get Wild

POSING ISN'T ABOUT THE  
POSE... IT'S ABOUT THE VIBE

# The Secret Sauce

Here's the deal: These are your basics. The real magic comes with hand placement and emotion. We'll guide your feet, but once we throw in a simple prompt—how you react is what makes it yours.

Bonus tip? Don't be afraid to create space between you! Some of the best shots happen when you break the 'must-touch-at-all-times' rule. Adds depth, storytelling, and a little cinematic flair.
